

BIOLOGICAL & PLANT STIMULANTS

TSUNAMI[®] PENETRANT

TSUNAMI[®]

PENETRANT

World Class Wetting Agent

A complexed penetrant and surfactant with added fulvic acid and carbohydrates. Assists in solving hydrophobic soil problems with ingredients designed to reduce recurrence.

Ideal for tank mixing with fertilisers and chemicals for optimum soil and thatch penetration.

APPLICATION RATES

Injection / Fertigation 2-5 litres per hectare or 20-50 ml per 100 square metres or as advised. Inject monthly or as required for optimum water use efficiency.

Boom Spraying 5 litres per hectare or 50 ml per 100 square metres or as advised. Apply with 400 litres per hectare of water or more. Irrigation is recommended for optimum effectiveness. Repeat as desired.

Fertiliser & Chemical Placement 2-5 litres per hectare or 20-50 ml per 100 square metres or as advised. Tank mix with required chemicals to increase penetration and take up. Irrigation is recommended for optimum effectiveness. Use as often as needed.

Dilution rate

1:20 or as advised

Store in a cool place away from sunlight
Stir well before use

TYPICAL ANALYSIS

Major Elements	w/v%
Proprietary Surfactant Blend	55.0%
Carbohydrates	5.0%
Fulvic Acid	5.0%
